RE: WAGE AWARDS FOR PILATES PRACTITIONERS IN AUSTRALIA

The APMA is often approached regarding a pay scale for Pilates Staff.

Background

We note the difficulties and challenges in setting a scale due to the variable nature of location and level of experience of the instructor.

Our Position

- The APMA is not currently tasked to set standards of national awards for Pilates Practitioners.
- We support the ability of individual studios and their management to set reasonable wages associated with their markets. We anticipate it to be close to the hourly wages paid to professionals in the exercise prescription market.
